OGTC

CUI – Why are we still talking about this?

Rebecca Allison

26th January 2021

Marathon fined £1.16m for North Sea platform blast

CUI shutdowns NE Operator's Oil Export Line

Reported hydrocarbon releases increased to 126 in 2019

“This is an industry that has to operate with the highest degrees of safety and predictability.....

.....if something goes wrong with Apple, you may not be able to make calls for a day, or your phone won't respond. If we mess up in our industry, people die.”

Over 95% of industry feel their CUI management is not adequate and should be modernised or radically transformed

Prediction

Data & digital analytics for continuous monitoring

Monitoring

Early signs of moisture & corrosion

Detection

Automated & efficient inspection techniques

Our mission: Eliminating failures due to CUI by 2026
